

# **IMPROVEMENT OF IMPLEMENTATION OF MAN'S LAND USE RIGHTS IN HAI DUONG CITY, HAI DUONG PROVINCE**

**Tran Trong Phuong**

## **Summary**

The result of implementing the land use right for the period 2011-2015 in Hai Duong City was quite exciting with 6.963 applications registered at the One-Stop Shop. The majority of people were satisfied with the reception, guidance and time spent on solving administrative procedures related to the rights of land users. However, in order to better serve the people, the local authorities need to invest more facilities and equipment for the administrative sections; ensure the sufficient staff in both quantity and quality to meet the requirements of the work; as well as promulgate regulations for closer coordination among agencies and units with the One-Stop-Shop Department of the People's Committee. Moreover, the disseminating process of land law should be promoted in different forms so that people are aware of and comply.

**Key words:** *Land use right; land use efficiency, Hai Duong city.*
