

# **ANALYSIS OF FACTORS INFLUENCING THE EFFICIENCY OF MARKET HOG IN CAN THO CITY'S HOUSEHOLDS**

**Tran Thanh Dung, Thai Bich Tuyen , Vo Thi Lao**

## **Summary**

The analysis of the factors influencing the efficiency of market hog in Can Tho city's households was very urgent to make pig breeding more profitable. This research randomly interviewed 79 farmers who had pig breeding in Vinh Thanh district, Can Tho city; the data was analyzed by descriptive statistics and linear regression model. Research results showed that, most pig farmers during the study period suffered losses due to low pig price but the cost was still high, the highest was the food cost, FCR (Feed Conversion Ratio) was too high. Factors influencing profitability in market hog were participation in training, clear pig origin and using of mix feed for pigs.

**Key word:** *Breeding efficiency, Can Tho city, FCR, household, market hog.*
