

# **SOCIALIZING INVESTMENT IN BUILDING SMALL RESERVOIRS IN THE NORTHERN MOUNTAINOUS REGION**

**Tran Chí Trung, Tran Manh Truong, Nguyen Van Kien**

## **Summary**

Implementing socialization on investment in building small reservoirs is suitable to actual needs, so that the investment is not only depend on state budget but promoting other economic components, specially enterprises and farmers participating in investment to utilize social sources and reduce public investment of the government. Based on scientific and actual analyses, this paper proposes 3 models for socialization on investment in building small reservoirs in the Northern mountainous regions including: (1) Community invest in building storage ponds; (2) Enterprises invest in building small reservoirs; and (3) State supports investment and community contribute for building small reservoirs. Implementing these modes is an important solution to develop small reservoirs providing water for agriculture production, new rural development.

**Keywords:** *Socializing, small reservoir.*
